

issues. I am proud to count myself as a member of the Tufts family, and to add my congratulations to the official proclamations by Governors and Mayors across the country.

For the past 148 years, Tufts has trained many of our nation's outstanding scholars and distinguished political leaders. Tufts has provided outstanding leadership in medicine, engineering, nutrition and education. In addition to Tufts' strong academic tradition, it is a national leader in emphasizing service learning and providing opportunities for students to combine community service with their academic life. This program called "TuftServe" was highlighted when President Clifton held his Summit for America's Future in 1997, and it continues to be a model for the country. Campus Compact, housed at Tufts, has assisted Massachusetts colleges in participating in America Reads and America Counts, two initiatives that continue to improve the lives and futures of children in public schools.

I commend Tufts for the wide range of opportunities that it continues to offer to its students and alumni, and I also commend Tufts' President, John DiBiaggio, and all the members of the Tufts community for their impressive accomplishments in enhancing education and contributing so effectively to Massachusetts, the nation, and the world.●

232ND ANNIVERSARY OF THE CHAMBER OF COMMERCE

● Mr. GRAMS. Mr. President, April 5th marked the 232nd anniversary of the founding of the first Chamber of Commerce in the United States. A full eight years before the colonies declared their "independence" from English rule, New York City business owners banded together to create a unified voice. Today, there are thousands of local Chambers from Anchorage, Alaska to Zumbrota, Minnesota.

Over the past eight years, I have had to honor to work with these grassroots organizations on a wide variety of issues. Whether its been estate tax relief or permanent normalized trade with China, Minnesota's chambers have been there, working for Minnesota's job providers, every step of the way. That is why I was so proud to receive the Chamber's Spirit of Enterprise award earlier this year.

When Washington talks about our strong economy, debating what to do with the billions in federal surplus dollars, it sometimes appears as though Congress wants to take all the credit. Policy makers focus on the innovations, the increased productivity, the "globalization" of today's marketplace as proof of their good work. I don't need to remind my colleagues that the only thing Government can do is to remove the barriers to competition and provide a level playing field. The rest is a direct result of the entrepreneurial spirit of the men and women who've

sacrificed to build businesses around Minnesota and around the country. Employers and employees, working hand in hand and with their chamber of commerce, have helped to turn this nation around.

So Mr. President, while our chamber members are taking care of business back home, we must recognize they are looking to the Congress for leadership to stem the tide of burdensome regulations and oppressive taxes. I believe working together, we can create an environment where all can thrive. And as we mark the anniversary of the first chamber of commerce, let us celebrate the contributions of all our chambers.●

IN RECOGNITION OF CHARLES STEWARD MOTT COMMUNITY COLLEGE AND MR. PETER LEVINE, MPH

● Mr. LEVIN. Mr. President, I rise to congratulate Mott Community College and Mr. Peter Levine, MPH on being selected as the 1999 Corporate and Individual Health Advocates of the Year by the American Lung Association of the Michigan-Genesee Valley Region. Mott Community College and Mr. Levine are being honored by the Lung Association for their efforts to encourage, promote and raise awareness about improving the health of the Genesee Valley Region.

Mott Community College (MCC) is a dynamic community institution serving the needs of all the residents of Genesee County. This commitment to community service is manifested in the school's efforts to promote public health on campus and in the community. MCC has implemented a proactive lung health program that not only eliminates smoking in all campus buildings, but also assists smokers in their efforts to "kick the habit". MCC provides counseling for employees who desire to quit smoking, and its health insurance providers offer educational programs to support employees who desire to quit smoking.

In addition, MCC has become a leader in community service. The college encourages faculty and staff to serve on local boards for community-based, non-profit organizations, and the school allows employees to fulfill these commitments on company time, if necessary. The school also serves as a gathering place for community health special events. The annual MCC Health Fair brings community and health officials together, and Tipper Gore chaired a recent mental health town meeting on campus. MCC students and faculty in the health sciences share their expertise by assisting school groups, churches and the Genesee County Public Health Department with a variety of community health initiatives.

Peter Levine has served his community, state, and country in countless ways. He serves as the Executive Director of the Genesee County Medical Society. The Society is a progressive organization which seeks to be pro-pa-

tient and pro-physician. During Mr. Levine's tenure, the Medical Society has grown from a small association employing a few people into a set of four corporations serving the medical and general community with approximately 80 employees. The Society focuses on medical, social, bioethics, environmental health and resource allocation issues.

Mr. Levine has been on the faculty of Michigan State University since 1985, where he is currently an Associate Adjunct Professor in the College of Human Medicine. He has published extensively about health issues in scholarly and popular journals. In 1992, Health Care Weekly Review cited him as one of the eight most influential health care policy individuals or organizations in the State of Michigan. Peter Levine was a founding Board Member and volunteer for the Genesee County Free Medical Clinic. He also serves on the board of numerous civic and professional organizations. Currently he is the Chair of the Michigan Council of County Medical Society Executives.

Mr. President, I have mentioned only a small sampling of the many ways in which Charles Steward Mott Community College and Mr. Peter Levine have used their creativity, hard work and unflagging commitment to public service to make this community and our nation a better place to live. I know my colleagues will join me in honoring Mott Community College and Peter Levine for service on behalf of the Genesee Valley Region and State of Michigan.●

FORTIETH ANNIVERSARY OF THE DEATH OF CHARLIE MOHR

● Mr. MOYNIHAN. Mr. President, I rise today to pay tribute to the memory of Charles "Charlie" Joseph Mohr, the University of Wisconsin's last 165-pound collegiate boxing champion. In April 1960, Charlie was badly beaten in a NCAA championship bout against San Jose State's Stuart Bartell. Minutes later he began convulsing in the locker room and lost consciousness. A week afterward, Charlie died without regaining consciousness.

Charlie grew up in Merrick, NY, and learned to box in nearby Long Beach. At age 18, he reached the semifinals of the prestigious New York City Golden Gloves amateur boxing tournament. In 1955, Charlie wrote a letter to Wisconsin's boxing Coach John Walsh asking about the possibility of receiving a scholarship. Coach Walsh eagerly obliged.

At the university, he excelled in all aspects of campus life. He was a good student who helped other's study for their exams. Charlie was very involved with the local parish St. Paul's Church and even thought about becoming a priest.

However, it was in the ring where he gained his notoriety. In his freshman
